### RJC CERTIFIES FRENCH JEWELLERY MANUFACTURER, CREATION JMC

LONDON - RJC announced today that Creation JMC has achieved Certification against the 2013 Code of Practices (COP) at its manufacturing facility in Paris, France.

“It is a pleasure to announce Creation JMC has been certified against the 2013 COP. The new provisions under the 2013 COP address important issues for our Members and their supply chain. We are delighted to see Members achieving Certification against the standard and warmly congratulate Creation JMC,” says Andrew Bone, RJC’s Executive Director.

The successful verification assessment was led by Anne-Lise Legrand from SGS United Kingdom Limited, one of the independent third-party auditing firms accredited by the RJC.

“Creation JMC is very pleased to have successfully obtained RJC Certification. Our certification is an opportunity for us to once again confirm that our business is aligned with RJC values in terms of good ethical business practices. We are thrilled to be part of this community of confidence,” says Frank Mazoyer, Commercial Operations Manager at Creation JMC

#### About RJC

The Responsible Jewellery Council is an international not-for-profit standards and certification organisation. It has more than 700 Member companies that span the jewellery supply chain from mine to retail. RJC Members commit to and are independently audited against the RJC Code of Practices – an international standard on responsible business practices for diamonds, gold and platinum group metals. The Code of Practices addresses human rights, labour rights, environmental impact, mining practices, product disclosure and many more important topics in the jewellery supply chain. RJC also works with multi-stakeholder initiatives on responsible sourcing and supply chain due diligence. The RJC’s Chain-of-Custody Certification for precious metals supports these initiatives and can be used as a tool to deliver broader Member and stakeholder benefit.
