### RJC CERTIFIES OROLUX SA

LONDON - RJC announced today that Orolux SA has achieved Certification against the 2013 Code of Practices (COP) at its manufacturing facility in Noirmont, Switzerland.

“It is a pleasure to announce Orolux SA has been certified against the 2013 COP. The provisions under the 2013 COP address important issues for our Members and their supply chain. We are delighted to see Members achieving Certification against the standard and warmly congratulate Orolux SA,” says Andrew Bone, RJC’s Executive Director.

The successful verification assessment was led by Jean-Francois Jenni from Bureau Veritas Italia, one of the independent third-party auditing firms accredited by the RJC.

“Orolux SA is honoured and pleased to have achieved RJC Certification. This certification confirms that our core values and our commercial practices are in harmony with the RJC and demonstrates our commitment to our customers and business partners. For 30 years, Orolux have been committing itself to providing impeccable work and excellent service. With our status of being a RJC certified member, we are continuing this journey with the mission to develop our business individually and collectively in a sustainable and responsible way in the future,” says Jacques Loichat, CEO of Orolux SA.

#### About RJC

The Responsible Jewellery Council is an international not-for-profit standards and certification organisation. It has more than 850 Member companies that span the jewellery supply chain from mine to retail. RJC Members commit to and are independently audited against the RJC Code of Practices – an international standard on responsible business practices for diamonds, gold and platinum group metals. The Code of Practices addresses human rights, labour rights, environmental impact, mining practices, product disclosure and many more important topics in the jewellery supply chain. RJC also works with multi-stakeholder initiatives on responsible sourcing and supply chain due diligence. The RJC’s Chain-of-Custody Certification for precious metals supports these initiatives and can be used as a tool to deliver broader Member and stakeholder benefit.

The RJC is a [Full Member of the ISEAL Alliance](#) – the global association for sustainability standards. For more information on RJC Members, Certification, and Standards please visit [www.responsiblejewellery.com](http://www.responsiblejewellery.com)
