Auditor Statement of Conformance

Based on the scope and findings of the Audit, the sites visited and the available information provided by the Member:

The Member has demonstrated a conformance level consistent with a 3 year Certification Period.

Confirmation

The Auditors confirm that:

The information provided by the Member is true and accurate to the best knowledge of the Auditor(s) preparing this report.

The findings are based on verified Objective Evidence relevant to the time period for the assessment, traceable and unambiguous.

The scope of the assessment and the method used are sufficient to establish confidence that the findings are indicative of the performance of the Member's defined Certification Scope.

The Auditor(s) have acted in a manner deemed ethical, truthful, accurate professional, independent and objective.

CoC Certification Scope

CoC Certification is open to RJC Members and/or Entities under their Control. The CoC Certification Scope is defined by the Member/Entity seeking CoC Certification and must include:

- All Facilities under the Control of the Member that the Member/Entity intends to use for the extraction, processing, manufacturing, storage, handling, shipping and receiving, and marketing of CoC Material; and
- All Outsourcing Contractors that the Member/Entity intends to use for the processing and manufacturing of CoC Material; and
- The types of CoC Material (Gold, and/or Platinum Group Metals) to be included in the Certification Scope; and
- The types of Eligible Material (Material in the form of Mined, Recycled and/or Grandfathered), if any, for which the Member/Entity intends to issue Eligible Material Declarations.

Steps in the Certification Process

Audit Methodology

The RJC standards documentation is comprehensive and includes an auditable standard (the Chain-of-Custody standard), guidance, handbook for certification and assessment tools for businesses and auditors. These can be downloaded at:

<http://www.responsiblejewellery.com/chain-of-custody-certification/>

The audit process is a management systems audit aligned with ISO19011. Auditors use the triangulation method of management and employee interviews, documentation review and facility observations to verify an Entity's performance against the applicable standards.

Following Certification, a Surveillance Audit is conducted by the RJC Accredited Auditor to monitoring a sample of CoC Provisions to provide assurance that the Entity continues to conform with the RJC CoC Standard. The sample of Provisions is selected by the Auditor and covers areas of greatest risk of non-conformance as determined during the previous Audit.

For the first Self Assessment or Certification Audit, evidence includes records from the previous 12 months. Sampling during a Surveillance Audit or a Re-Certification Audit includes records since the last audit.

RJC Complaints Mechanism

The RJC aims to ensure the fair, timely and objective resolution of complaints relating to potential non-conformance with RJC Certification or RJC's own policies and procedures. Where complaints arise, it is a condition of participation in RJC activities for RJC Members and Accredited Auditors to submit to the RJC Complaints Mechanism and to be bound by the decisions of the RJC. However this does not replace or limit access to judicial remedies.

Full documentation supporting the RJC Complaints Mechanism can be downloaded from:

<http://www.responsiblejewellery.com/contact-us/rjc-complaints-mechanism/>
