Provenance claims	Not applicable
Auditor statement of conformance	Based on the scope and findings of the audit, the sites visited and the available information provided by the member:  The member has demonstrated a conformance level consistent with a 3 year certification period  The member has demonstrated a conformance level consistent with the transitional 1 year certification period, as one or more major non-conformances have been found
Mid-term review	Based on the scope and findings of the certification audit, the sites visited and the available information provided by the member:  A. The member will not require a mid-term review during the three-year certification because:  No anticipated changes to the certification scope during the certification period  Member has less than 25 full-time equivalent personnel  Low risks of changes to current conformance levels and strong management controls  During the certification period there are:  There are parallel audit programmes for equivalent schemes (e.g. SA8000, OHSAS 18001, ISO14001, ISO 45001) recognised by RJC  Rigorous internal audit programs  Strong internal controls for the management, closure and effective review of corrective actions for non-conformances

	B. The member will require a desktop mid-term review during the three-year certification because:
	Any changes to the certification scope does not affect risk of changes to current conformance levels.
	The certification audit identified two or less minor non- conformances for critical provisions; or four or less minor non- conformances in total (that are not covered by a parallel audit programme recognised by the RJC) for any non-mining sector member, or an individual member is in the mining sector.
	The actions can be verified remotely.
	No risk to critical provisions.
	C. The member will require a site visit mid-term review during the three-year certification because:
	Known and anticipated changes to certification scope during the certification period
	Member no longer supports the recognised external standards and initiatives in Table 2
	Certification audit identified three or more minor non- conformances for critical provisions, or five or more minor non- conformances (that are not covered by a parallel audit programme recognised by the RJC for any non-mining sector member or individual mining facility if the member is in the mining sector)
	New systems and controls for critical provisions that could not be tested at the certification audit
	Facilities with risk of non-conformances against critical provisions
	Other compelling reason presented by the lead auditor
Confirmation	The auditors confirm that:
	The information provided by the member is true and accurate to the best knowledge of the auditor(s) preparing this report.
	The findings are based on verified objective evidence relevant to the time period for the assessment, traceable and unambiguous.
	The scope of the assessment and the method used are sufficient to establish confidence that the findings are indicative of the performance of the member's defined certification scope.
	The auditor(s) have acted in a manner deemed ethical, truthful, accurate professional, independent and objective.
Auditor signature	On file
