## Mid-Term Review

## *Code of Practices Certification Scope*

---

RJC Members must achieve Certification against the Code of Practices within two years of joining the RJC. The Certification Scope must include those Entities, Facilities and Business Activities under the Member's Control that activity contribute to the Diamond, Gold and/or Platinum Group Metals Jewellery supply chain. This includes the following sectors, where applicable:

- Exploration and Mining
- Diamond Trading, Cutting and Polishing
- Precious Metals Refining, Trading and Hedging
- Jewellery Manufacturing and Wholesaling
- Jewellery Retailing
- Service Industries, including grading, assaying, appraising, secure transport providers and others.

## Steps in the Certification Process

---

## Audit methodology

---

The RJC Code of Practices documentation is comprehensive and includes an auditable standard, detailed Standards Guidance and Assessment Manual, handbook for certification and assessment tools for businesses and auditors. These are all publicly available and can be downloaded at:

<http://www.responsiblejewellery.com/rjc-certification/code-of-practices-certification13/>

Independent third-party audits are conducted by RJC Accredited Auditors to verify that a Member's business performance and its systems and processes conform to the requirements specified in the RJC Standard. The audit process is a management systems audit aligned with ISO19011. Auditors use the triangulation method of management and employee interviews, documentation review and facility observations to verify an Entity's performance against the applicable standards.

## Auditor Accreditation

---

Third party auditors carrying out RJC Certification audits must be accredited by the RJC, a process which involves assessment of competence, independence and internal quality systems of the auditing firm. RJC also provides mandatory training on its standards for accredited auditors. Auditor accreditation information can be found at:

<http://www.responsiblejewellery.com/auditors/>

## RJC Complaints Mechanism

---

The RJC aims to ensure the fair, timely and objective resolution of complaints relating to potential non-conformance with RJC Certification or RJC's own policies and procedures. Where complaints arise, it is a condition of participation in RJC activities for RJC Members and Accredited Auditors to submit to the RJC Complaints Mechanism and to be bound by the decisions of the RJC. However this does not replace or limit access to judicial remedies.

Full documentation supporting the RJC Complaints Mechanism can be downloaded from:
