- The member has demonstrated a conformance level consistent with a 3 year certification period.

## *Mid-term review*

Based on the scope and findings of the certification audit/re-certification audit, the sites visited and the available information provided by the member:

  - New systems and controls for critical provisions that could not be tested at the certification audit
  - Facilities with risk of non-conformances against critical provisions
  - Other compelling reason presented by the lead auditor.
