Mid-term review	Based on the scope and findings of the certification audit/re-certification audit, the sites visited and the available information provided by the member:
	A. The member will not require a mid-term review because:
	No anticipated changes to the certification scope during the certification period.
	Member has < 25 full time equivalent personnel.
	Low risks of changes to current conformance levels and strong management controls.
	B. The member will require a desktop mid-term review during the 3 year certification period to review progress on corrective action against non-conformances within 12-24 months, but a site visit is not required because:
	The actions can be verified remotely; or
	No risk to critical provisions; or
	There are parallel audit programs for equivalent recognised schemes (e.g. De Beers BPP, SA8000, OHSAS18001, ISO14001)
	C. The member will require a mid-term review during the 3 year certification period that will include the need for site visits because:
	Known and anticipated changes to certification scope during the certification period
	Certification audit identified >2 minor NCs for critical provisions; or > 4 minor NCs in total
	New systems and controls for critical provisions that could not be tested at the certification audit
	Facilities with risk of non-conformances against critical provisions
	Other compelling reason presented by the lead auditor.

Confirmation	The auditors confirm that:
	The information provided by the member is true and accurate to the best knowledge of the auditor(s) preparing this report.
	The findings are based on verified objective evidence relevant to the time period for the assessment, traceable and unambiguous.
	The scope of the assessment and the method used are sufficient to establish confidence that the findings are indicative of the performance of the member's defined certification scope.
	The auditor(s) have acted in a manner deemed ethical, truthful, accurate professional, independent and objective.
Auditor signature	On file
