### *Provenance claims*

The Seller warrants that the gold has been supplied in compliance with the Signet Responsible Sourcing Protocol ("SRSP").

Hoover & Strong provides recycled gold, platinum & palladium under the trade name Harmony Metals™. The sources of these metals are from responsible source suppliers.

Hoover & Strong provides Fairmined and Fairtrade certified gold sourced from small-scale and artisanal miners. Hoover & Strong supplies gold sourced from artisanal miners in the DRC. These are fully traceable and conflict-free based upon a series of chain of custody documentation using the Consensus traceability and due diligence technology platform, and to OECD guidelines using the Better Sourcing Program.

Hoover & Strong sources Harmony Recycled Diamonds from our in-house refinery. A recycled diamond is a naturally occurring diamond from mined rough, previously set in jewelry and then removed for re-sale.

Hoover & Strong sources diamonds from Canada based on written assurances from our suppliers.

Hoover & Strong sources diamonds that are conflict-free based on written assurances from our suppliers.

### *Auditor statement of conformance*

Based on the scope and findings of the audit, the sites visited and the available information provided by the member:

- ☒ The member has demonstrated a conformance level consistent with a 3 year certification period.
- ☐ The member has demonstrated a conformance level consistent with the transitional 1 year certification period for 1 year.
- ☐ The member is not eligible for RJC certification due to having four consecutive 1 year certification outcomes.
- ☐ Critical breaches have been identified and the RJC management team should initiate disciplinary procedures.

## Mid-term review

Based on the scope and findings of the certification audit/re-certification audit, the sites visited and the available information provided by the member:

**A. The member will not require a mid-term review because:**

No anticipated changes to the certification scope during the certification period.

Member has < 25 full time equivalent personnel.

Low risks of changes to current conformance levels and strong management controls.

**B. The member will require a desktop mid-term review during the 3 year certification period to review progress on corrective action against non-conformances within 12-24 months, but a site visit is not required because:**

The actions can be verified remotely; or

No risk to critical provisions; or

There are parallel audit programs for equivalent recognised schemes (e.g. De Beers BPP, SA8000, OHSAS18001, ISO14001)

**C. The member will require a mid-term review during the 3 year certification period that will include the need for site visits because:**

Known and anticipated changes to certification scope during the certification period

Certification audit identified >2 minor NCs for critical provisions; or > 4 minor NCs in total

New systems and controls for critical provisions that could not be tested at the certification audit

Facilities with risk of non-conformances against critical provisions

Other compelling reason presented by the lead auditor.

## Confirmation

### The auditors confirm that:

-  The information provided by the member is true and accurate to the best knowledge of the auditor(s) preparing this report.
-  The findings are based on verified objective evidence relevant to the time period for the assessment, traceable and unambiguous.
-  The scope of the assessment and the method used are sufficient to establish confidence that the findings are indicative of the performance of the member's defined certification scope.
-  The auditor(s) have acted in a manner deemed ethical, truthful, accurate professional, independent and objective.
