- 6. Responsible mining sector:** Not applicable

Provenance claims

The seller warrants that any diamonds supplied to Signet have been supplied in compliance with the Signet Responsible Sourcing Protocols ('SRSPs').

The seller warrants that any products supplied to Signet containing gold have been supplied in compliance with the Signet Responsible Sourcing Protocols ('SRSPs').

Based on written assurance from our suppliers, our diamonds have not originated from the Mbada and Marange regions of Zimbabwe or from the Democratic Republic of Congo.

We comply with the WDFB Charter on Disclosure of Synthetic, Treated Natural and Natural Diamonds.

All our diamonds are natural, all having been checked in a synthetic diamond testing machine to ensure this.

Auditor statement of conformance

Based on the scope and findings of the audit, the sites visited and the available information provided by the member:

- The member has demonstrated a conformance level consistent with a 3 year certification period.
- The member has demonstrated a conformance level consistent with the transitional 1 year certification period for 1 year.
- The member is not eligible for RJC certification due to having four consecutive 1 year certification outcomes.
- Critical breaches have been identified and the RJC management team should initiate disciplinary procedures.

Mid-term review

Based on the scope and findings of the certification audit/re-certification audit, the sites visited and the available information provided by the member:

A. The member will not require a mid-term review because:

No anticipated changes to the certification scope during the certification period.

Member has < 25 full time equivalent personnel.

Low risks of changes to current conformance levels and strong management controls.

B. The member will require a desktop mid-term review during the 3 year certification period to review progress on corrective action against non-conformances within 12-24 months, but a site visit is not required because:

The actions can be verified remotely; or

No risk to critical provisions; or

There are parallel audit programs for equivalent recognised schemes (e.g. De Beers BPP, SA8000, OHSAS18001, ISO14001)

C. The member will require a mid-term review during the 3 year certification period that will include the need for site visits because:

Known and anticipated changes to certification scope during the certification period

Certification audit identified >2 minor NCs for critical provisions; or > 4 minor NCs in total

New systems and controls for critical provisions that could not be tested at the certification audit

Facilities with risk of non-conformances against critical provisions

Other compelling reason presented by the lead auditor.

Confirmation

The auditors confirm that:

-  The information provided by the member is true and accurate to the best knowledge of the auditor(s) preparing this report.
-  The findings are based on verified objective evidence relevant to the time period for the assessment, traceable and unambiguous.
-  The scope of the assessment and the method used are sufficient to establish confidence that the findings are indicative of the performance of the member's defined certification scope.
-  The auditor(s) have acted in a manner deemed ethical, truthful, accurate professional, independent and objective.
