Summary of Findings

Arezzo Refinery Co., Ltd joined the RJC in 2014 within the precious metals trader, refiner and/or hedger forum. This is their third certification, based on an audit conducted on 3rd of April 2023. The below summary of audit findings complements the Member’s current RJC certificate **No 0000 4768**.

Audit objective, activities, and methodology

The objective of the audit was to review the member’s systems and processes to establish whether they conform to the RJC Code of Practices (COP) 2019. The audit activities included planning, conducting the audit and reporting on conformance, including corrective actions approval, as per the RJC Assessment Manual. The audit consisted of collecting / sampling and reviewing objective evidence including documentation, management and employee interviews, facility walk-through, and other observations, in relation to at least the previous 12 months.

The auditors confirm that:

- The information provided by the member is true and accurate to the best knowledge of the auditor(s) preparing the report.
- The findings are based on verified objective evidence relevant to the time period for the audit, traceable and unambiguous.
- The audit scope and audit methodology are sufficient to establish confidence that the findings are indicative of the performance of the member’s defined certification scope.
- The auditor(s) have acted in a manner deemed ethical, truthful, accurate professional, independent and objective.

Description of Member Company

Arezzo Refinery Co., Ltd. is a precious metals refinery established in 2009 by Italian partners who have more than thirty years of experience in the precious metals business. Arezzo specialises in recovery and refining based on melting systems that allow high productivity in recovery, capable of extracting from very low concentrations particularly from solid remains such as dust, powders, used crucibles and similar. The production starts with receiving materials from clients as per above, followed by melting to assay process, client communication and confirmation, ending with the [refining](#) process. Materials in scope are recycled gold, silver, platinum, palladium and rhodium.
